- Differentiates between Influenza A and B
- Detects H1N1 strains*
- Nasal swab specimens
- 2 extra test sticks included for external QC testing
- Less than 1 minute hands on time, results in 10 minutes
- Room temperature storage

Please note that the value of the special offer(s) the Customer may receive from the manufacturer under this program is a "discount or other reduction in price" to Customer under Section 1128B(b)(3)(A) of the Social Security Act [42 U.S.C. 1320a-7b(b)(3)(a)]. Accordingly, Customer shall disclose this and any other discounts or other reductions in price received under this program under any state or federal program which provides cost or charge-based reimbursement to the Customer for the products and services purchased under this program.

*Although this test has been shown to detect the Mexico/4108/2009 H1N1 virus cultured from a positive human respiratory specimen, the performance characteristics of this device with clinical specimens that are positive for the 2009 H1N1 influenza virus have not been established.
